## The Partner for your Logistic

Trascar S.p.A. is a company existing since 1973, operating in the segment of the Logistic Solutions for the industry. In 1999 introduced a new concept to prepare rolls pack for non-wovens line, based on a revolutionary system, able to trait the whole rolls production without operators. More than 18 years later their 1st Fully Automated Line Trascar is now ready to offer it to non-wovens producers every where around the world.
